4. FIRST AID MEASURES

4.1. Description of first aid measures	
General	In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious place in recovery position and seek medical advice.
Inhalation	Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration.
Skin contact	Remove contaminated clothing. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
Eye contact	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart and seek medical advice.
Ingestion	If accidentally swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.
4.2. Most important symptoms and effects Unknown	s, both acute and delayed

4.3. Indication of any immediate medical attention and special treatment needed

Unknown

5. FIRE-FIGHTING MEASURES

5.1. Extinguishing media

Suitable extinguishing mediaRecommended: alcohol resistant foam, CO2, powders, water spray.Not be used for safety reasonsWaterjet

5.2. Special hazards arising from the substance or mixture

Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard. Appropriate breathing apparatus may be required.

5.3. Advice for fire-fighters

Cool closed containers exposed to fire with water. Do not allow run-off from fire fighting to enter drains or water courses.

6. ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Avoid breathing vapours. Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13).

6.2. Environmental precautions

Do not allow to enter drains or watercourses. If the product contaminates lakes, rivers or sewage, : inform appropriate authorities in accordance with local regulations

6.3. Methods and material for containment and cleaning up

Clean preferably with a detergent; avoid use of solvents

6.4 . Reference to other sections

Refer to protective measures listed in sections 7 and 8 and refer to disposal considerations in section 13.

7. HANDLING AND STORAGE

7.1. Precautions for safe handling

Keep container tightly closed. Avoid skin and eye contact. Avoid inhalation of vapour and spray mist. Smoking, eating and drinking should be prohibited in application area. For personal protection see Section 8. Never use pressure to empty: container is not a pressure vessel. Always keep in containers of same material as the original one. Comply with the health and safety at work laws.

7.2. Conditions for safe storage, including any incompatibilities

Observe label precautions. Store between 5 and 30 °C in a dry, well ventilated place away from sources of heat and direct sunlight. Keep away from sources of ignition. Keep away from oxidizing agents, from strongly alkaline and strongly acid materials. No smoking. Prevent unauthorized access. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

7.3. Specific end use(s)

The product has to be applicated by brush and/or by roller (see also the product data sheet). Make sure when handling this product in confined spaces to provide adequate

8. EXPOSURE CONTROLS / PERSONAL PE	ROTECTION			
8.1. Control parameters				
Substance name	TWA (8 hours (¹)	TWA (15 min) (²)		
Ethyleendiglycol	180 mg/ m3	-		
Source: Dutch national MAC-values list				
(1) Time Weighted Average (8 hours)				
(2) Time Weighted Average (15 minutes)				
8.2. Exposure controls				
Provide adequate ventilation. Where rea	isonably practicable this should be achi	eved by the use of local exhaust ventilation and good general extraction.		
Occupational exposure controls				
Respiratory protection	If workers are exposed to concent	rations above the exposure limit they must use appropriate, certified respirators.		
	For prolonged or repeated handlin	ng, use butyl rubber or neoprene gloves.		
Hand protection	The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed. Barrier creams may help to protect the exposed areas of the skin, they should however not be appli once exposure has occurred.			
Eye protection	Use safety eyewear designed to p	Use safety eyewear designed to protect against splash of liquids		
Skin protection	Personnel should wear anti-static clothing made of natural fibre or of high temperature resistant synthetic fibre.			
Environmental exposure controls				

Environmental exposure controls

The product should not be allowed to enter drains or water courses.

9. PHYSICAL AND CHEMICAL PROPERTIES

General data			
Appearance	Liquid		
Odor	Product -specific		
9.1. Information on basic physical and che	mical properties		
рН	7.5 - 8.5		
Flash point	Not applicabel because of the nature of this product		
Viscosity (20°C)	2000-4000	mPa.s	Method: Brookfield DV-I sp64 6rpm
Specific gravity	1,04 - 1,20 kg/l	(depending the colour)	Method: Pyknometer
Vapour density	Not applicabel bed	cause of the nature of this product	
Lower explosion limit	Not applicabel because of the nature of this product		
Water solubility	miscible in water		
9.2. Other information			

-

10. STABILITY AND REACTIVITY

10.1. Reactivity

10.2. Chemical stability

Stable under recommended storage and handling conditions (see section 7).

10.3. Possibility of hazardous reactions

Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

10.4. Conditions to avoid

When exposed to high temperatures may produce hazardous decomposition products.

10.5. Incompatible materials

10.6. Hazardous decomposition products

Such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.

11. TOXICOLOGICAL INFORMATION

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the Dangerous preparations Directive 1999/45/EC and classified for toxicological hazards accordingly. See Sections 2 and 15 for details.

11.1. Information on toxicological effects

The preparation is classified according the Dangerous Preparations Directive 1999/45/EC. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and absorption through the skin. The liquid splashed in the eyes may cause irritation and reversible damage.

Contains fenylbis(2,4,6-trimethylbenzoyl)-fosfineoxide. May cause allergic reaction

12. ECOLOGICAL INFORMATION

There are no data available on the mixture itself. Do not allow to enter drains or water courses. See Sections 3 for details. The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and is classified as NOT dangerous for the environment.

12.1. Toxicity
Unknown
12.2. Persistence and degradability
No data available
12.3. Bioaccumulative potential
No data available
12.4. Mobility in soil
No data available
12.5. Results of PBT and vPvB assessment
No data available
12.6. Other adverse effects
No data available
13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

Do not allow into drains or water courses or dispose of where ground or surface waters may be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with regulations made under the Control of Pollution Act and the Environmental Protection Act. Empty containers must be scrapped or reconditioned. The European waste code voor this product is 08.01.12 (or 01.12.14 in flocculated form) according to Directive 2000/532/EC. Contact your local hazardous waste handler for further information.

14. TRANSPORT INFORMATION

Transport within the user's premises:

Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

This product is NOT classified as dangerous for transport in the meaning of international transport regulations (ADR/RID, IMDG, ICAO/IATA).

14.1. UN number	-	
14.2. UN proper shipping name	-	
14.3. Transport hazard class(es)	-	
Subsidiary Hazard Class:		
Label numbers:		
14.4. Packing group	-	
14.5. Environmental hazards	-	
14.6. Special precautions for user		
None		
14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code		
Not applicable		

15. REGULATORY INFORMATION

EU Legislation: The information in this Safety Data Sheet is in accordance with:

- Annex II of the REACH Regulation (EC) No. 1907/2006

- EU Directive 1999/45/EC
